

I am writing to request that you decide AGAINST loosening or eliminating the current regulations that limit media ownership of television stations and newspapers. If the stations and newspapers are owned by only a few companies, there is less chance of an "alternate" or opposing viewpoint being heard (I.E. if FOX supports a conservative viewpoint, the liberal voice will not be heard on their programs).

Freedom of expression and choice are some things that make this country great. If one company owns several stations and newspapers, they practically have a monopoly on our news sources. Our choice is taken away. Clear Channel is an example of how damaging that can be on the radio front, with no local news coverage on their stations. Please don't let that sort of thing happen on the TV/newspaper front.

Thank you.
